LITTLE BIG SOUND

This is The Buck Dewey Big Band. And they are large. Large meaning their specific soulful sound is a unique blend of swing, hip-hop and rock, which gives all the tunes on their latest album—*Friday Night Chicken Waltz*—a deeper contemporary vibe mixed with old-school feeling. The not-really-big band formed last summer around guitarist Jimmy Fox's lo-fi solo project, *I am the spider*, and hasn't looked back since—touring throughout the Northeast and coming up with new material. The fresh songs eventually morphed into the release of *Friday*—a recording effort that is sure to hit it big...or shall we say large, rather.
